

For ease of ordering follow these simple steps:

- STEP 1** Select the sign you require and choose from the sizes shown.
- STEP 2** Note the alpha-numeric reference number.
- STEP 3** Select the type of material you require. See below

Choose the right sign ?

ISO 7010

Since 2004, ISO 7010 has sought to harmonise graphical symbols throughout member states of the European Union. This is in an effort to gain greater recognition of symbols within safety signs. This major change to the design of symbols has been instigated by ourselves so you are able to purchase your signs in the knowledge that they will comply to future legislation.

Ask us about applying Bacto-shield™ Antibacterial Film to your signs

Will eliminate over 99% of bacteria transfer. Ideal for Health & Food establishments.

- Can Be Applied To Any Rigid Sign
- Tough Durable Surface
- Highly Scratch Resistant
- Resistant To Most Cleaning Chemicals

What Is The Right Material ?

Self Adhesive Vinyl
 A flexible PVC, with a high tack adhesive backing. Suitable for interior use. For a good bond ensure the sign is fixed to a smooth, clean & non-porous surface.

Rigid PVC plastic
 Available in various thicknesses, for interior & exterior use. Standard signs are 1mm thick.

Self Adhesive Backed PVC
 All standard safety signs can be produced in 1mm rigid plastic with a self adhesive backing for easy fixing. Please allow 48 Hours for delivery when requesting this material.

Foam PVC
 Suitable for interior & exterior use and available in various thicknesses. Typically used for double-sided hanging, projecting and skiphook signs. Lightweight & durable, available in various colours.

Correx
 A flexible PVC, with a high tack adhesive backing. Suitable for interior use. For a good bond ensure the sign is fixed to a smooth, clean & non-porous surface.

Gemglow Photoluminescent
 Charged by ambient light these signs immediately illuminate in sudden darkness. An excellent material for Way-finding & Fire equipment signs. Reverse printed for a high quality, durable finish. Complete with a self adhesive backing.

Tuff
 Sub-surface printed signs are virtually indestructible. They do not fade, are anti-corrosive and are highly resistant to deliberate vandalism. These signs can be used again and again.

Braille
 As well as the standard range of DDA signs shown we also offer a bespoke sign service. Allowing us to make signs to your requirements. Please contact the sales office for further details.

Acrylic
 Reverse applied / printed acrylic signs when used with our chrome locators gives a prestige finish to any surrounding.

Prestige
 For interior & exterior use, excellent longevity in normal environmental conditions. Can be used for a prestige look when finished in a Satin Anodised Silver or Brushed Gold effect. Complete with a self adhesive backing.

Aluminium Traffic
 Class ref 1 and ref 2, reflective 3mm aluminium signs are ideal for site management signs. Can be supplied with channel & clips for post fixing. Comply to BSEN 12899-1 2001.

Specialist Signage Materials
 We are able to manufacture signs on most types of available materials, whether it is a quantity of one or one thousand. We also offer multilingual signs. Please contact our sales office for further information.
